Caring for your Aussie Tank Bag®

Step 1:

Remove existing filter basket from tank and push basket approximately halfway down into tank bag.

Step 2:

Place basket and bag back into tank ensuring down pipe is pointing back into basket.

Step 3:

Pull drawstring tight around pipe and basket.

Care Instructions:

It is recommended that your Aussie Tank Bag be cleaned regularly.

Empty any debris before turning inside out and hosing.

Refer to your state's requirements for rainwater tank drinking rules.
